Type of Account	Annual Fee (discounted upfront)
Private	150€ (Account Activation)
Private Islamic	150€ (Account Activation)
Business	300€ (Account Activation)
Business Islamic	300€ (Account Activation)
Investment Brokerage (Minimum 50.000€ Deposit)	5.000€ (Account Activation) + Commissions (B.1-B.6)

Annual account fees will be deducted automatically upfront from your accounts. In the case of a trading account the banking trading-fees (besides the account activation fee) for this account are zero point two five percent (0,25%) of the committed trading volume (see Trading Volume Agreement). These fees are due and have to be paid annually upfront to the bank. The Bank reserves the right to deduct 50% of the initial fees at any time deemed suitable by the bank based on the minimum "Trading Volume" and will adjust the ulterior fees based on the actual "Trading Volume" on a quarterly basis if the "Trading Volume" exceeds the minimum "Trading Volume".

Annual account fees (except Trading Account) can be waived for the following:

1. Accounts opened before June 1, 2011 with a household relationship that totals €50,000 or more as of June 30, 2011, and that elect to go paperless and receive all documents online-only, to include statements, confirms, tax documents and shareholder communications, will receive a fee rebate of up to €60 per account of the applicable annual fee. Accounts opened after May 31, 2011 with a household relationship that totals €50,000 or more as of June 30, 2011, and that elect to go paperless and receive all documents online-only, to include statements, confirms, tax documents and shareholder communications, will receive a fee rebate of up to €15 per account of the applicable annual fee.
2. Accounts linked to a International Finance Bank Package will qualify for fee waivers as follows:
 - A. For Education Savings Accounts, annual fees will be waived.
 - B. For Asset Program accounts, annual fees will be waived if the qualifying balance is €250,000 or more on June 30. Asset Program accounts with a PMA qualifying balance of less than €250,000 will receive a fee rebate of up to €65 of the applicable annual fee per account.
 - C. Brokerage Investment Accounts with mutual fund only positions of €250,000 or more (exclusive of money market, closed-end and exchange-traded funds) and a volume of minimum €500.000 per year will receive a 50% rebate.

A.2. The Islamic Account

All deposits into your Islamic Account are maintained in a Shariah approved way. We don't earn any interest on your credit balances. The money you keep with us isn't used for any interest-based or non-Shariah approved business activities. And there are no extra charges just because we look after your money in accordance with Shariah.

All we ask is that you keep a minimum balance of €25.000 in your account each month. If your account balance falls below €25.000 at anytime then you'll pay our standard 'Business Extra Tariff' on all transactions you make during that charging cycle.

We don't offer an overdraft on this account so if you inadvertently carry out a transaction that would take your account below €0, we will return any items we can, for example cheques, to prevent this from happening. However it is not possible to return some items. Many electronic payments are sent and received instantly and cannot be recalled.

If your account balance does fall below €0, an unauthorised borrowing fee will be charged. We also charge a fee for any items we return to help prevent your account balance from falling below €0, although please be assured we will never charge interest on top of this fee.

We calculate the charges monthly, from the 10th of one month to the 9th of the next. And the first regular statement you receive following each charging period will show any account transaction charges. Your account will be charged 18 days (or the next working day) after the date of the statement. If there are any charges to pay but you're not due a regular statement, we will send you an extra one, free of charge

1. The Base Rate is set at the discretion of International Finance Bank Boards with reference to commercially recognised interest rates, industry conditions relating to the extension of margin credit and general credit market conditions. The Base Rate, in combination with a variable rate based on debit balance, is the rate International Finance Bank Boards charges investors to extend credit.
2. Interest is computed daily.
3. Payments for purchases in cash accounts should be received on or before the settlement date of the trade. If your payment is received after that date, interest may be charged to your account at the Base Rate plus 3.625%. Disbursement for a sale in a cash account is not required to be made prior to the settlement date of the trade. Occasionally, we may honour your request to receive payment of the sale proceeds prior to settlement date.
